on

### “Nanomaterials & their Novel Applications”

11 January 2022

School of Basic & Applied Sciences, Maharaja Agrasen University has organized an expert talk by eminent academician and scientist Prof. Atul Thakur, Director, Amity Centre of Nanotechnology, Amity University, Gurugram on the theme "Nanomaterials & their Novel Applications" under the Centre of Excellence in Nanotechnology. He explained the significance of nanoscience & nanotechnology for the area of importance for agriculture waste and waste water treatment in villages and discussed the development of N95 face mask to curb the surge of Covid 19. Dr. Atul Thakur has very nicely explained the technologies for the synthesis of nanomaterials by the use of agriculture waste and cleaning of the contaminated water in ponds. Hon'ble Vice Chancellor Prof.(Dr.) R.K. Gupta graced the occasion with his motivational words.
